How do you pay?

We pay every week on Thursday with a 2 weeks' holdback. \$50 minimum on stormpay and wires. If you require larger amounts sent at one time you can set the minimum yourself.

Payment by request is now available. Effective from 07.17.2006

Our loyal affiliates now have the chance to minimize the hold period and to get the money when they need it. Even though it will be handled individually in every case the guidelines are simple.

You should have the steady sales record for the last 3 months (that is your daily average should be at least 3 sales for the above mentioned period) and your traffic source can be easily tracked. This will not apply to the commission earned during special promotions and we won't be able to pay to PayPal earlier than scheduled. You are welcome to use Bank Wire, Epass, Egold, Webmoney and

What are your payment plans?

Our affiliate program offers 3 levels of RevShare.

You can choose to receive 30, 40 or 50% from sale. Prices of products increase with each new level of Revshare. You can set ANY price provided that it is higher than the base price (price of product at 30%).

For example, viagra 100mg x 10 pills, has the following prices:

\$29.95 (30%)

\$35.95 (40%)

\$49.95 (50%)

- You cannot set the price lower than \$29.95
- Any price between \$29.95 and \$35.95 will give you Revshare of 30%
- Any price between \$35.95 and \$49.95 will give you Revshare of 40%
- Any price higher than \$49.95 will give you Revshare of 50%

To change the price enter the new figure in "Your Price" window and click on the arrow next to it. The forecast of price per pill and your commission will be shown. Click on the Save button at the bottom of the screen to enable the new prices. (If you don't click on the arrow the "Save" button won't work)

You can also change all prices by setting a needed percentage in "Value", (in the upper part of interface), or by coping the prices from another Tracking id.

Please note that some products may have only one or two levels of Revshare.

How do you know that this is "my" customer?

First, your affiliate id is clearly visible in the site's url. Our program leaves a cookie at a customer's computer to identify him at the return. And finally the customer creates an account at our site. He is sure to remember his original login name as we offer great bonuses for the returning customers.

Web Gang Operating in the Open

By RIVA RICHMOND

Published: January 16, 2012

Five men believed to be responsible for spreading a notorious computer worm on [Facebook](#) and other social networks — and pocketing several million dollars from online schemes — are hiding in plain sight in St. Petersburg, Russia, according to investigators at Facebook and several independent computer security researchers.

The men live comfortable lives in St. Petersburg — and have frolicked on luxury vacations in places like Monte Carlo, Bali and, earlier this month, Turkey, according to photographs posted on social network sites — even

Mr. Droemer said the gang's success was more attributable to workaday persistence and willingness to adapt than technical sophistication. They could have spread Koobface to many more PCs, he said. "They could have done a lot more technical things to make it more perfect, more marvelous. But there was just no need to do it. They were just investing as much to get the revenue they wanted to get."

OF UKRAINE**

From September 29 to October 2, Security Service of Ukraine completed its phase of international sting operation that was carried out in cooperation with law enforcement agencies in the U.S., the UK and the Netherlands. As a result of coordinated interaction stopped the illegal activities of the Ukrainian branch of the international criminal gang that carried out the large-scale computer crime aimed at kidnapping of foreign banks funds on a large scale with subsequent legalization.

The activities of this group are involved about 20 people - inhabitants of different regions of Ukraine, five of whom were detained employees of Security Service of Ukraine.

Criminal scheme looked like this: criminals committed defeat malware victim's computer, of which manages a checking account and steal personal access codes. Using this information, the criminals kidnapped illegally transferred money to accounts of Ukrainian banks in cash or transferred in Ukraine using international payment systems.

It is estimated that caused damage thus reaching more than 40 million.

The funds were directed to the development of illegal activities OCG, as well as the acquisition of movable and immovable property, vehicles, valuable consumer goods and more.

During the special operation in the defendants removed the powerful hardware, which served as an instrument of crime, worth about 100 thousand dollars, cash, valuables and jewelry.

Remote equipment taken to the examination, after which will be prosecuted.

THE SECURITY SERVICE OF UKRAINE

Службою безпеки України у координації з правоохоронними органами США, Великої Британії, Нідерландів, Франції, Німеччини, Кіпру та Латвії (усього – 10 країн) припинено протиправну діяльність міжнародного злочинного угруповання хакерів, організованого та координованого громадянами України під прикриттям легально діючої комерційної структури, які шляхом використання спеціалізованого комп'ютерного вірусу « Conficer » отримували доступ до рахунків в іноземних банківських установах різних країн world unlawfully removed from their funds and transferred them into cash using bank accounts and international payment systems.

Obtained in this way means being legalized through the acquisition of movable and immovable property. It is estimated that as a result of illegal activities to customers of banks suffered damage worth over 72 million dollars.

"The attackers ran a virus that attacks computers, and offered anti-virus program, which contained another virus which, in turn, allowed to obtain data on bank card payment people. This is the first of this scale operation in combating cybercrime" - said Head of counterintelligence information security State Security Service of Ukraine Vitaliy Hlevytsky.

June 21 this year simultaneously in several countries conducted more than 30 searches (in Ukraine - 19). Foreign partner services seized about 30 servers Latvian law enforcement agencies arrested two persons. Seized more than 40 accounts in banks in Latvia and Cyprus.

During the searches conducted by the Security Service of Ukraine in premises belonging to the established members of the criminal group and rented offices, seized more than 74 units of computer equipment, 300 pieces of electronic media, documentary materials and cash.

Investigators Security Service of Ukraine in Kyiv, Kharkiv and Luhansk interviewed 16 participants established an international criminal group, including the organizers and coordinators.

According to preliminary estimates seized computer equipment for the purpose of storage of information in it that proves unlawful activities established by individuals, found that the software that created (or modified) and used by individual members of the criminal group refers to malicious software.

In the investigation, carried out on the territory of Ukraine, attended by experts of the FBI. According to FBI officials, operation and results Joint operations were commended the U.S. Government.

Senior FBI Special Agent Norman Sanders told the U.S. that the FBI investigated the case for three years. Exchanging information with the Security Service, it became clear that the security services of both countries to investigate the criminal acts of the same person.

"Without the support of the Security Service failed to make this special operation," - he said.

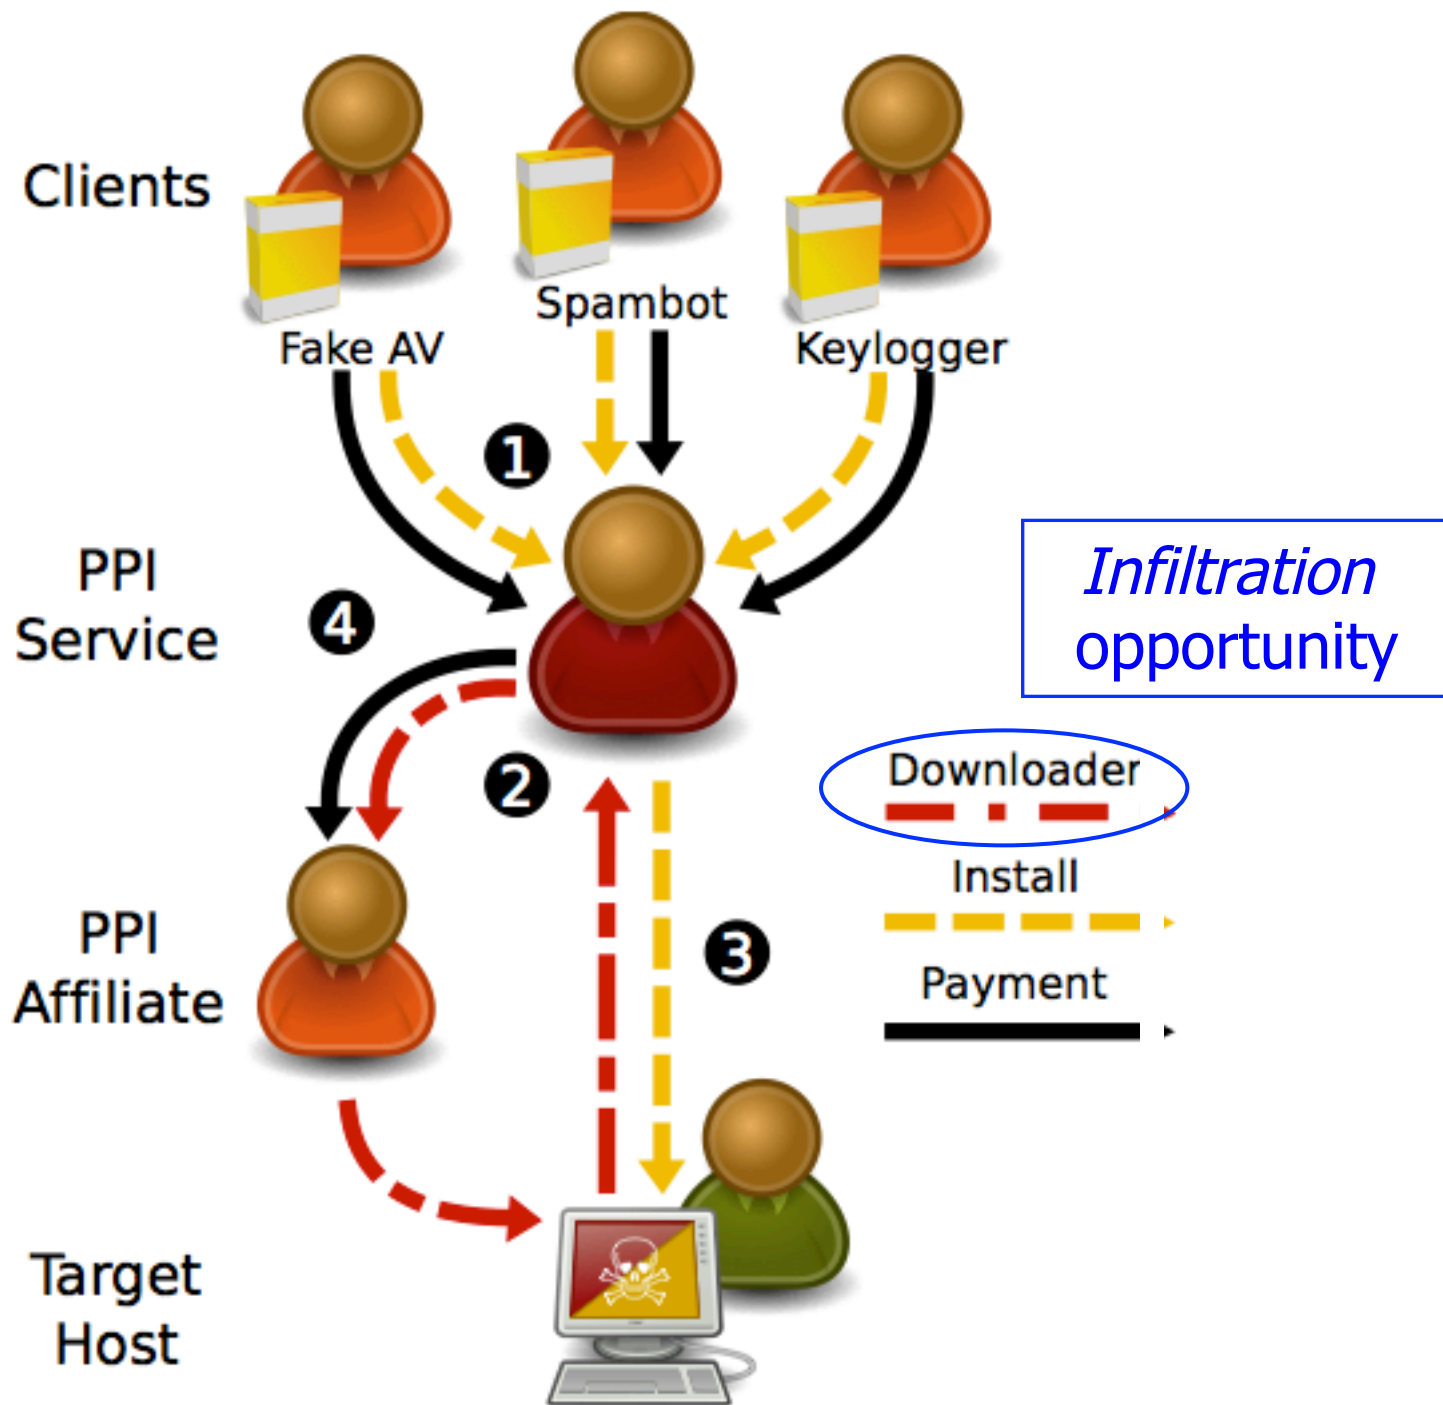

According to. about. head of the FBI offices in Ukraine Brenda Smith, cybercrime can be covered by the whole world, and we can not say that Ukraine is a country in which the most common hacking.

He noted that similar offenses committed around the world.

Spammers and Their Bankers

Published: May 28, 2011

In early 2004 Bill Gates claimed that “two years from now, spam will be solved.” Today it amounts to 70 percent of all e-mail. Yet there may be a chance to cut it back.

In March, spam volumes tumbled as United States marshals seized computers at Internet hosting facilities that controlled Rustock, a

The good news is there may be other ways to disrupt spammers. The Times’s John Markoff [reported](#) that computer scientists at two University of California campuses have found another vulnerability: spammers’ banks.

To track the flow of information, the researchers made hundreds of purchases. Buying Viagra from the Pharmacy Express group in Russia involved computers in Brazil, China and Turkey. The Viagra came from India. But 95 percent of the purchases were handled by three banks — in Azerbaijan, Latvia and St. Kitts and Nevis. This suggests that if banks

Уважаемые Вебмастера,

В связи с событиями произошедшими в течение последних двух месяцев, когда под удар попали все банковские и процессинговые счета компании, мы вынуждены сообщить, что, поскольку до сегодняшнего дня не удалось найти достаточно надежного решения для продолжения работы, а долги перед поставщиками и партнерами продолжают расти, мы вынуждены полностью остановить функционирование партнерской программы Medinc. Мы были рады работать с вами, друзья, и нам жаль, что сотрудничество в рамках данного проекта более невозможно. В случае, если нам удастся найти надежное, по нашему мнению, процессинговое решение и возобновить работу, все вебмастера получат уведомления на почтовые адреса, указанные при регистрации.

Dear webmasters,

Due to the recent developments which led to all our bank and processing accounts being jeopardized, we have to inform you, that functioning of the Medinc partnership program will be discontinued, as no reliable solution has been found to keep it working, and the debts to suppliers and partners keep increasing.

We were happy to work with all of you, and we are very sorry that we can't cooperate with you anymore within this project.

If we manage to find a reliable processing solution to resume working, all webmasters will receive an email notification sent to the address submitted during registration.

ВАЖНО: переход в режим "ПАУЗА"!

Уважаемые Партнеры,

Как вы могли заметить, последние пару дней у нас проблемы с процессингом. Решение вопроса "подвисло" в воздухе, и пока не ясны окончательные сроки его разрешения.

Мы принципиально не хотим собирать "вейтинги" и по сути работать в батч. Мы так же не готовы рисковать вашими деньгами с малознакомыми и не очень серьезными посредниками. Поэтому с настоящего момента **весь ГлавМед переходит в режим "ПАУЗА"**. Никакие новые заказы обрабатываться не будут до момента решения вопроса с процессингом. Все уже запроценные заказы будут выполнены, как и следует.

Убедительная просьба временно перевести свой трафик на другие шопы/проекты.

Dear Partners,

As you may have noticed, in the last couple of days we've had **problems with processing**. We don't have a solution yet, and there is no concrete time when it will be resolved.

.....

From this point forward, GlavMed is switching to a "PAUSED" mode. **No new orders will be processed** until the processing issue is resolved.

.....

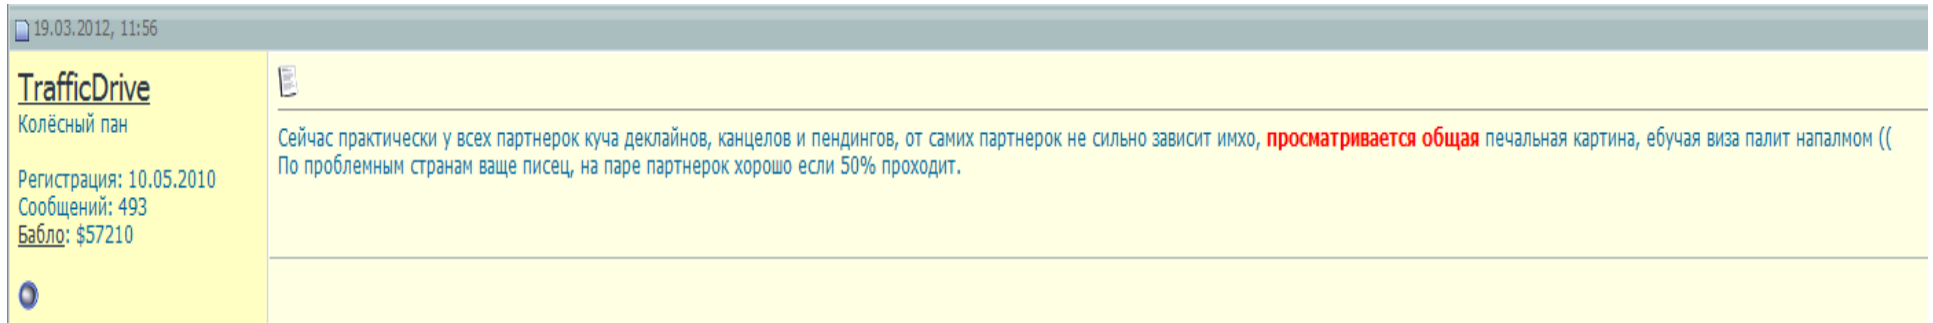

We urge you to temporarily switch your traffic to other shops/projects.

“Right now most affiliate programs have a mass of declines, cancels and pendings, and it doesn't depend much on the program imho, there is a general sad picture, fucking **Visa is burning us with napalm** (for problematic countries, it's totally fucked, on a couple of programs you're lucky if you get 50% through).”
